Action Scuba Continuing Education

PADI Enriched Air Diver (Nitrox)

Dive Longer. Explore more. Stay energized.
Become a PADI Enriched Air Diver for only \$189

The PADI Enriched Air Diver course is of PADI's most popular specialties because it lets you safely extend your no stop time beyond the no decompression limits for air.

That means more time underwater to enjoy your dive – almost twice as long, depending on depth! You`ll also be more rested after several repetitive dives on nitrox. But you`ll need to be certified as an Enriched Air Diver to get nitrox air fills, by taking this course.

Plus, the Enriched Air course takes you one step closer to Master Scuba Diver - your ultimate non-professional certification in recreational diving.

Upcoming 2015 Courses (1 evening):

January 7
February 10
March 10
April 8
May 27
June 17
July 15
August 12
