

Start Diving with Action Scuba!

PADI Open Water Diver

Become a fully certified scuba diver in just two weekends!

Whether you want to dive on your vacations down south, or explore our historic local waterways, your training with Action Scuba will develop you as a safe and confident scuba diver wherever you go. And of course, you'll have fun while learning!

Course Description: Our expert instructors will guide you through 5 pool dives followed by 4 dives in the open water, during which you'll master twenty basic scuba diving skills. Your practical learning will be complemented by instructor led theory sessions, which you can opt to replace with online elearning. At the end of the course, your **globally recognized PADI certification** will allow you to dive in open water anywhere, to a depth of up to 18 metres or 60 feet.

Save up to \$200 by bundling your level 2 Advanced Course with your Open Water course.

This will give you an excellent foundation to start diving and continue to the next level with our PADI Advanced Open Water diver course, which will enable you to dive to depth of up to 30 metres or 100 feet, sample some exciting adventure dives and fine tune your skills.

Prerequisites: 10 years of age for Junior Open Water Diver and 15 years for Open Water Diver. Good health, reasonable fitness and comfort in the water.

Equipment you'll use during the course includes: Mask fins, snorkel, tank, regulator, buoyancy compensator (BCD), submersible pressure gauge and exposure protection. You'll also use a cool underwater dive computer with our Premium or VIP package.

Training with options: Not all of us learn the same way or have the same needs. That's why we took the standard entry level diving certification course (PADI Open Water) and added other features and services to offer you two additional packages that are exclusive to Action Scuba. These give you exceptional value, especially if you plan on diving locally. You can also opt to replace the classroom sessions with online e-learning for added flexibility. Add one of our Advanced Course packages to increase your skills and become certified for deeper dives. **The choice is yours!**

2011-12 Schedule

Part 1: Theory & pool sessions
